

LIVESTOCK and POULTRY

LIVESTOCK

New York livestock producers marketed 292 million pounds of meat animals during 1999, down 6 percent from the 1998 total of 310 million pounds. Cattle and calf marketings were off 4 percent from a year earlier. Hogs and pigs were down 25 percent, while sheep and lambs decreased 16 percent from the poundage sold in 1998. Meat animal cash receipts, totaling \$131 million, were up 10 percent from 1998.

Gross income from livestock during 1999, which includes the sale of meat animals, wool, and the value of home consumption, totaled \$135 million, up 10 percent from a year earlier. Cattle and calves accounted for 94 percent of this total.

Calf prices, averaging \$70.80 per hundred pounds liveweight (cwt.), were up 36 percent from 1998. Cattle prices, at an average of \$37.10 per cwt. during 1999, were up 10 percent. Gross income from cattle and calves during 1999 totaled \$126 million, up 15 percent from a year earlier.

Hog and pig prices averaged \$26.10 per cwt. in 1999, down 18 percent from the previous year. Gross income from hogs and pigs during 1999 totaled \$5.76 million, down 37 percent from 1998.

Sheep and lamb marketings, at 3.56 million pounds during 1999, decreased 16 percent from a year earlier. Sheep prices averaged \$36.40 per cwt., off 2 percent from 1998. Lamb prices averaged \$83.10 per cwt., 4 percent lower than during 1998. Gross income from sheep and lambs during 1999 totaled \$2.96 million, down 15 percent from the prior year.

New York wool production during 1999 totaled 333,000 pounds, up 8 percent from the 1998 total. The average price received for wool decreased 38 percent to 28 cents per pound, compared with 45 cents in 1998. The value of production, at \$93,000, decreased 33 percent from a year earlier due to lower prices.

HONEY

Honey production from beekeepers with five or more hives in New York totaled 4.83 million pounds during 1999. This total is down 7 percent from the 1998 production of 5.20 million pounds. A decrease in yield per colony outweighed additional colonies.

The 1999 production was extracted from 69,000 colonies, up 6 percent from the 65,000 colonies in 1998. Honey yield per colony averaged 70 pounds, 12 percent below the 1998 yield. Honey stocks on hand across the

State as of December 15, 1999 totaled 2.08 million pounds, a decrease of 15 percent from the 2.44 million pounds a year earlier.

Prices received by beekeepers in New York averaged 66.0 cents per pound for all methods of sale during 1999, 6 percent less than the 1998 average price of 70.0 cents. Value of honey production for the State in 1999 totaled \$3.19 million, compared with \$3.64 million in 1998.

TROUT

New York trout producers sold a total of 159,000 pounds of trout valued at \$696,000 during the 12 months ending December 31, 1999. This production, which includes foodsize fish, stockers, and fingerlings, was down 30 percent from the production total of 1998, with declines in all three categories. Value of production was down 24 percent from a year ago.

The 1999 output included 93,000 pounds of foodsize trout averaging \$4.02 per pound in value, 63,000 pounds of stocker trout averaging \$4.65 per pound, and 3,000 pounds of fingerlings. Foodsize fish averaged .95 pounds in weight, while stockers averaged .39 pounds. Poundage of foodsize trout sold was down 24 percent from 1998, while stocker poundage dropped 36 percent.

POULTRY

The combined value of New York produced eggs, broilers, and turkeys, plus the value of sales for other chickens, was \$56.7 million for the year ending November 30, 1999. This total is down 6 percent from a year earlier. Increases in the value of turkeys and broilers produced were more than offset by decreases in the value of eggs produced and the value of other chickens sold. Of the 1999 combined value, 83 percent was derived from eggs and 9 percent from turkeys.

Egg production in New York during the 1999 year totaled 1.02 billion, up 3 percent from a year earlier. Egg prices averaged 11 percent lower, decreasing from 62.4 cents in 1998 to 55.6 cents in 1999. The resulting total value of \$47.1 million was 8 percent below the 1998 egg production value of \$51.3 million.

Statewide turkey production in 1999 amounted to 11.9 million pounds, down fractionally from 1998. The average price of 44 cents per pound was up 4 cents from the 1998 price. Value of production totaled \$5.2 million, up 10 percent from the 1998 level of \$4.8 million.

Table 79. DUCKS: Production and Value, 1990-1999

1998	2,350	18,200	69.0	12,558
1999	2,200	17,600	69.0	12,144

Broiler production in New York for 1999 totaled 11.0 million pounds, up 11 percent from a year earlier. The average price per pound decreased 2 cents from 1998 to 39 cents in 1999. Value of production for 1999 totaled \$4.3 million, up 6 percent from \$4.1 million in 1998.

The poundage of other chickens sold in New York (*excluding broilers*) during 1999 was down 23 percent from the previous year. Prices were also down sharply, resulting in a value of sales of \$51,000, down 82 percent from \$280,000 in 1998.

Nationally, the combined value of eggs, broilers, and turkeys, plus the sales of other chickens, was \$22.4 billion for the year ending November 30, 1999. This total was up slightly from \$22.3 billion in 1998. The value of broilers was down slightly from 1998, while the value of eggs produced was down 3 percent and the value of turkeys was up 6 percent. Of the 1999 combined value, 68 percent came from broilers, 19 percent from eggs, and 13 percent from turkeys.
